Directive 2011/65/EU (RoHS II) and Delegated Directive 2015/863/EU (RoHS III)

Ostfildern, 23.07.2019

Dear Sir / Madam,

We hereby inform you that according to our current knowledge and based on information from our suppliers, the products supplied to you by our company comply with the above-mentioned guidelines.

Directive 2002/95/EU was revised, newly published as Directive 2011/65/EU and then updated in 2015 by Directive 2015/863/EU. Annex 2 to this guideline sets out in detail the limits for cadmium, lead, mercury, chromium, PBB, PBDE, DEHP, BBP, DBP and DIBP.

The manufacture and trade of goods that do not adhere to these limits is prohibited and we therefore expect our suppliers to comply fully with Regulation 2011/65/EU.

For all goods made available by us in the market, we give our assurance that the articles comply with the Directive 2011/65/EU including the extension to Regulation 2015/863/EU.

The above statement does not constitute an extension of any Elektor airsystems GmbH warranty. It is provided merely for information purposes and does not imply any legal obligation. Claims can therefore not be derived from the above statement. Elektor airsystems GmbH reserves the right to withdraw this information at any time.

We would further like to point out that our products in Germany are not subject to the ElektroG (Electrical and Electronic Equipment Act).

If you have any questions, please contact your Elektor airsystems gmbh representative.

Kind regards,

i.A. Sebastian Kappeller
Quality Manager

i.V. Steffen Kraft
Head of Technology Center
